Hi Christine. That's no problem. We could do an interview after the 17<sup>th</sup>. There is no hard deadline for these interviews, but I would say at least we would want them completed by the end of April so we can incorporate the input into the Five Year Review Report and Community Involvement Plan, which are coming out in the next few months. How about Friday April 18? I'm available any time that day, and I think Jesse is too. We do know your general feelings about the site, it's true. The interview opportunity is totally up to you.

Thanks,  
-jc

Jennifer,

I am going to have to pass. Much time went by since you sent out the inquiry and I now have an appointment at 2. I will forego my interview unless it can be after April 17th.

When do these interviews need to be complete? Please don't take my response as disinterest; however, it occurs to me that EPA already has a good sense of what I believe were the problems with the entire CAG process.

Let me know when this process starts and ends. I might be able to talk by phone at 1-1:30 if that works.

Hi Christine. Thanks for responding to the poll regarding a community interview for the VB/I-70 Superfund Site. I've got you scheduled for 1:00 pm this Monday, April 8. Does that still work for you? I am hoping to reserve the small meeting room at the Valdez Perry Library for these interviews. I will let you know about the location as soon as I hear back from the library. If you would prefer to meet somewhere else, please let me know. And if this time no longer works for you, that's fine. Just let me know and we can reschedule for another time.

Thanks,  
-jc
